

CMP30

Digital Audio Source - Tuner - CD - MP3

AUDAC

► Features

- CD Player / MP3 Player
- AM/FM Tuner with RDS
- USB slot for USB storage devices
- Memory card slot for SD/MMC Cards
- RS232 Control port
- Two Fixed Audio Outputs
- One Variable Audio Output
- Simultaneous operation of CD/MP3 and Tuner

► Applications

- All kinds of different applications where audio sources (CD, Mp3, Tuner, ...) and multiple audio sources are required

The CMP30 is a All-In-One digital audio source device which accomodates three different kinds of audio sources into one single device.

It combines a CD-Player, MP3 player and AM/FM tuner into one single rack space 19" housing, offering a flexible, multi-functional and compact solution for many applications where multiple source devices are needed. Some typical applications examples can range from simple standard audio systems to the most complex and advanced Multi-Zone audio distribution systems.

The front panel of the CMP30 contains a clear LCD screen displaying the current operation mode of the device together with all the necessary control and function selection buttons. For playing music files are a CD slot, USB slot and SD/MMC memory card slot provided, making it possible to play regular audio CD's as well as MP3 audio CD's and MP3 files stored on USB memory sticks or SD/MMC memory cards.

On the rear side are three audio outputs provided. Two of them are fixed audio outputs with a constant line level output carrying the signal from the CD/MP3 player and the tuner. This way the CD/MP3 player and tuner can operate simultaneously, making the device perfect for Multi-Zone audio distribution systems where multiple audio sources are required. The third audio output is a Variable audio output with volume control. The signal present on this audio output can be selected between CD/MP3 and Tuner.

An RS232 control port makes the operation possible from external control devices such as home automation systems.

► Specifications

SYSTEM SPECIFICATIONS	
Power supply	110~240V AC / 50~60 Hz
Inputs	Audio compact disk input 12 cm USB Memory Stick Input SD/MMC Memory Card Input
Control	Front Panel RS232
Outputs	2 x Fixed audio output 1 x Variable audio output
Frequency response	20 Hz ~ 20 kHz
Output level	Fixed output - 10 dB Variable output - ∞ ~ 0 dB
Power Consumption	10 Watt
PRODUCT FEATURES	
Construction	Steel
Mounting	19" Rack
Unit height	1 HE
Colour	Black
Dimensions (W x H x D)	482 x 44 x 330 mm
Weight	3.82 Kg
SHIPPING & ORDERING	
Packaging	Carton box
Shipping weight & volume	5.15 Kg - 0.0278 Cbm
Accessories included	Power cable Antenna
