

RG A10

Outdoor Antenna

AUDAC

► Features

- Omnidirectional
- Small size
- Made from aluminium
- Easy to install
- Light-weight
- Best reception
- 30 - 50 mm pole mounting clip

► Applications

- All situations where the reception of FM signals are desired

The AUDAC RGA10 is an omnidirectional outdoor FM antenna, designed to be used in any installation. It provides the best reception of FM-radio signals, where any kind of radio tuner is used.

The aluminium structure of the antenna ensures that it is resist against all weather conditions, and will last for years.

For the mounting of the antenna, there's a clip attached which is suitable for mounting on poles with a diameter of 30 to 50 mm.
